7'	40'	90'	\$556,575	\$118,460

### **LARGER AND CUSTOM SIZES AVAILABLE UPON REQUEST**

When we install any of our shelters, we furnish all supplies, instruments, labor, concrete (for anchoring system), and equipment, such as backhoes, trackhoes, cranes, etc. The prices above do not include installing the shelter in solid rock. In these areas, you will have to pay for excavating the hole.

We charge \$2.65/mile for delivering shelters up to 6ø wide and 20ø long. Shelters 7ø or 8ø wide will be \$3.25/mile for delivery. Any shelter over 8ø wide or 20ø long will be \$5.05/mile, plus the cost of over-width permits (if needed). Our expert builder/installer is located in Louisiana.

Note that we can also weld two or more shelters together, creating a more spacious environment in anticipation of a prolonged stay underground.
